

CAPITAL AREA UNITED WAY
ANNUAL REPORT
2022 - 2023

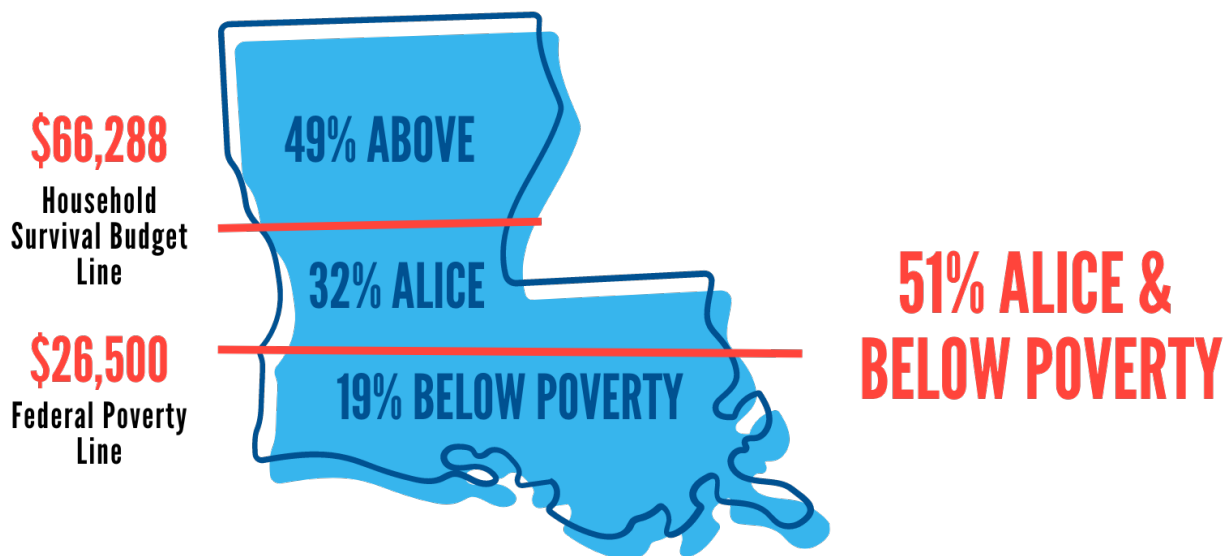

Capital Area United Way

WHO WE HELP

who is ALICE?

CAUW's work prioritizes the **ALICE population**. **ALICE stands for Asset Limited, Income Constrained, Employed**. The ALICE population is comprised of working residents that are struggling to make ends meet, have little to no savings, and are one emergency away from falling into poverty. The ALICE population includes every race, age, gender, and ethnicity and work in a variety of professions across our community.

To provide a better understanding of ALICE, the **2023 United Way ALICE Report for Louisiana** reveals that **32 percent, or 562,552, of Louisiana households are ALICE and another 19 percent live in poverty. Together, 51 percent of all Louisiana households cannot afford basic expenses** – housing, child care, food, transportation, health care, cell phone access, and taxes. From 2019 and 2021, 22,980 additional households in Louisiana found themselves struggling financially, despite tax credits and other pandemic and Federal Emergency Management benefits.

CARE COORDINATION

NEW

In the past year, more than 27,296 people have reached out to United Way 211/CAUW to receive information, referrals, and navigation help. Continuing this tradition of connecting help seekers to service providers, we expanded our reach into referral and care coordination. Our coordinators follow a closed-loop system meaning that referrals aren't just made, they're followed up and the outcome of the referral is tracked. Our coordinators seek all available avenues for our clients, ensuring that their needs are met. Since its inception, we have provided care coordination services for 499 clients.
